3-ply basket weave: structural surface maps

Ply-envelope proxy · original 3 × 2 basket specification

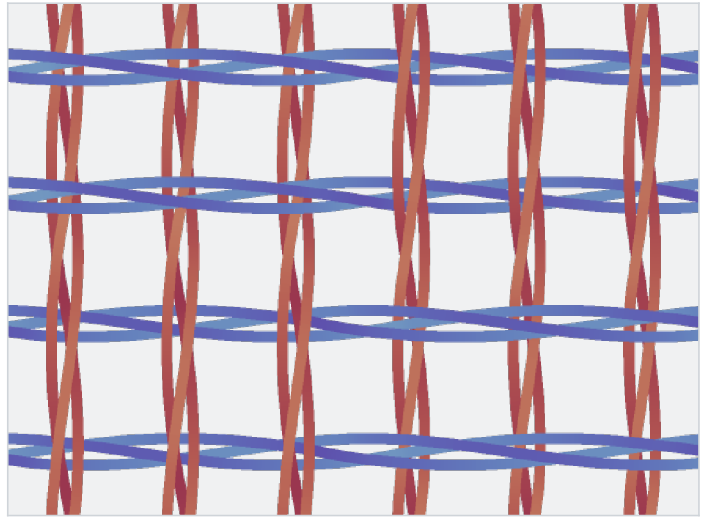

(a) Normal

World normal (+Z to camera)

RGB = (n + 1) / 2

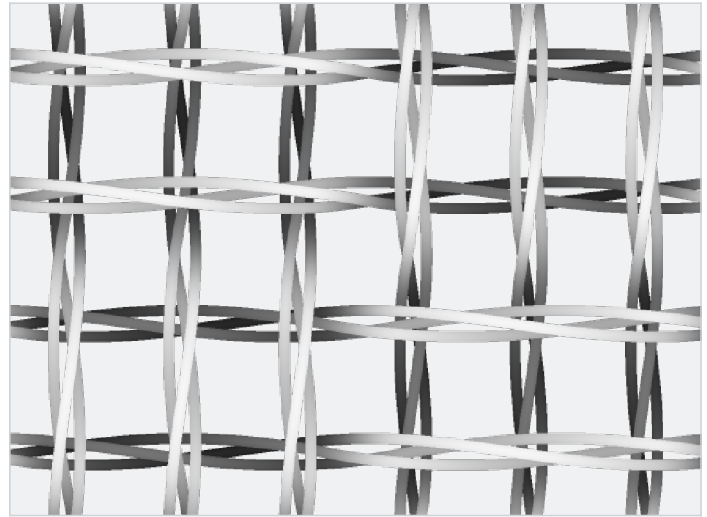

(b) Projected orientation

0 45 90 135 180

Projected axis (°; 0° = +X)

(c) Height

−60 −40 −20 0 20 40 60

World height z (µm); shared scale

Geometry intersections only · light gray = no surface hit · coverage-weighted display
